

## Sally's Sangria

### SALLY'S SANGRIA

Best made as individual drinks, bartender style, rather than mixing it all together in a pitcher- the ingredients still have their individual taste. Size of splashes are personal choice - making each drink a unique blend!

1/2 glass red wine (quality matters!)

Big splash of:

1. Best quality sparkling juice - I like pomegranate & blackberry (Safeway has one in 4 packs that's really good)
2. Pellegrino Sparkling Water- its not salty-

Small splash of:

1. Rose's Sweetened Lime Juice
2. Rose's Grenadine
3. Cointreau- French orange liqueur

Add ice to fill glass & watch the smoke come out!

Then, drop in wedges of fruit:

limes, peaches, oranges are great flavors with wine
